

Camp Yowochas Activity Guide

ARCHERY

Archery is an excellent activity for participants to improve and develop concentration skills. We have an archery range with targets and a safety net to practice your skills. Participants will learn basic parts of the bow and arrows and be instructed on how to shoot correctly. Learn these skills with the option of re-curve or compound bows provided by Camp Yowochas.

PROGRAM SPECIFICS

- Groups up to 15
- Well suited for ages 8 - adults
- Led by trained, Camp Yowochas staff
- Available April– October
- Participants shoot from 3 different firing lines varying from 20 - 35 feet

SAFETY CONSIDERATIONS

The rules are reviewed at the beginning of sessions, posted and strictly enforced. The Range Master gives commands for shooting and collection of arrows and only three shooters are permitted at the firing line at one time. Participants waiting for their turn will be asked to sit on the bench that is far back from the shooting line where they will be safe from the archers. Close toed shoes are a requirement at the archery range.
